EXAMINER'S AMENDMENT

An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.

Authorization for this examiner's amendment was given in a telephone interview with Leo H. McCormick, Jr., on October 11, 2005.

The claims has been amended as follows:

In claim 1 line 7 "and second" has been deleted;

In claim 1 line 19 –power—has replaced "first";

In claim 6 line 1 –initially—has been added after "pin".

REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance: the combination of elements as claimed is deemed to be directed to an unobvious improvement over the invention patented by Kervagoret. Kervagoret discloses a hydraulic brake booster comprising first (12) and second (14) bores for a power piston (18) and control valve (26), respectively, and an actuation chamber (16); wherein the second bore is connected to a source of pressure (via 32), a reservoir (via 38) and the actuation chamber; wherein the control valve includes first (28) and second (56) cylindrical members; with a first sleeve (46) in a stepped bore of the first cylindrical member, for controlling communication between an input port (34), a supply port (32) and a relief port (38); an actuator arrangement including a ball (52) in the stepped bore and a pin (55) in the second cylindrical member; wherein a first end of the pin is in the actuation chamber and connected to a first input member and a second end extends into the stepped bore to engage the ball.

Art Unit: 3745

The difference comprises that a second sleeve surrounds the pin , with a lip on a first end engaging the second cylindrical member, to position a second end in an auxiliary chamber in the second cylindrical member; wherein the second sleeve responds to a second input force generated by pressure fluid in the auxiliary chamber, to move the first ed into engagement with the ball, to independently effect a second brake application .

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, preferably **accompanies** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
